INTRODUCTION AND GENERAL INDEX

R. L. POLK CO., publishers of more than 1,400 city, county, state and national Directories, present to subscribers and the general public, this, the latest edition of the Ames City Directory, which also includes Nevada, Story County Directory.

Confidence in the growth of Ames' industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Ames to the world.

The enviable position occupied by R. L. POLK & CO.'s Directories in the estimation of the public throughout the country has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Ames and Nevada Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of Ames and Nevada, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Ames and Nevada, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Ames is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Ames, and the name, official personnel, nature and address of each firm and corporation in the city. A similar list for Nevada is shown farther on in the Directory.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Ames is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers. A similar list for Nevada is shown farther on in the Directory.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Ames is the fourth major department, printed on blue paper. A similar list for Nevada is shown farther on in the Directory.

V. THE STORY COUNTY DIRECTORY covering the small towns of the county and county taxpayers is the fifth major department, printed on white paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Ames and vicinity.

The Ames Directory Library

Through the courtesy of the publishers of the Ames City Directory, a Directory Library is maintained in the offices of the Ames Public Library, for free reference by the general public. This is one of more than over 800 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

The National Animal Disease Laboratory, Ames, Iowa, is the United States Department of Agriculture's research center for investigation of livestock and poultry diseases that occur in the United States. The laboratory, completed and occupied in 1961, is a complex of fire-resistant buildings located on a 318 acre tract of land approximately three miles northeast of the city. Constructed for approximately \$16.5 million, the laboratory with an operating budget in excess of \$8.0 million annually, each year continues to expand in research and laboratory facilities. This, the world's most modern veterinary research facility, requires as many utilities and services as a small city. Many of the animals used in the various research projects are reared at the Animal Production Unit, which is located approximately one and one-eighth miles south of the main laboratory on a site consisting of some 45 acres. The laboratory employs approximately 500 persons, one-fourth of which are scientists—research veterinarians, microbiologists, pathologists, biochemists, physicists, and other biological scientists. A number of laboratory assistants, technicians and administrative personnel are also employed.

The research aims and purposes of this laboratory are to develop basic and applied information on infectious and non-infectious diseases of animals that rob the American farmers of approximately \$2 billion annually, and decrease the potential of an adequate supply of animal protein to the consumer. Investigation of each disease entity is conducted by a team of scientists who have different and specialized training.

In addition to the research program, two USDA veterinary regulatory groups have programs associated with the laboratory. These include setting standards and testing veterinary biologics for safety, efficacy, purity and potency, and providing diagnostic services to support Federal programs for the control and eradication of animal diseases.

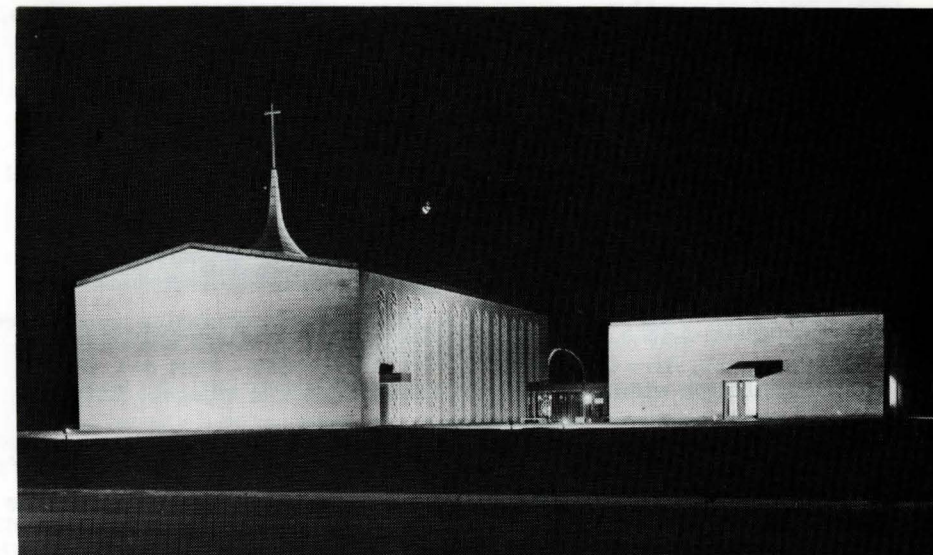

The National Animal Disease Laboratory

Brief concerts are given each week day shortly after 1 when classes are in session. Longer concerts are performed on special occasions.

THE IOWA STATE HIGHWAY COMMISSION

The responsibility of the Iowa State Highway Commission is to provide the road user with as fine a system of highways as is economically possible, and to protect that investment by continuous maintenance for safe year-round travel.

Created in the dirt road days of 1904 to make investigations of road conditions and to advise local authorities, the Iowa State Highway Commission today reflects the increasing awareness by Iowans of the importance of highway transportation to the state's development and progress.

The five members of the Commission, appointed by the Governor, establish organization policies. The administration of those policies is the responsibility of the Director of Highways, who is selected by the Commissioners.

Basic functions of the Commission are to:

1. Develop and maintain a current inventory of all highway facilities in the state.
2. Analyze and project highway needs.
3. Plan, program and design the necessary highway facilities including toll bridges, to meet these needs.
4. Acquire right of way, let contracts and supervise construction of new highway facilities.
5. Maintain highway facilities in a safe and well-kept condition for the motoring public.

The Highway Commission today is responsible for 8,957 miles of rural primary highways, 1,295 miles of primary extensions in cities and towns, 258 miles of state park and institution roads and for joint control with the 99 county boards of supervisors over 90,053 miles of secondary roads.

The planning, construction and maintenance of its highways is the state's second biggest business, next only to education. Of the nearly 113,000 miles of roads and streets in Iowa, the 10,252 miles in the Interstate and primary system are the direct responsibility of the Highway Commission.

More than 1,100 persons are employed in the Highway Commission state headquarters in Ames. More than 3,300 additional personnel are employed by the commission throughout the state. This total includes Commission maintenance forces at 165 garages in the 99 counties.

The Commission has six district offices, 23 resident construction offices and 24 maintenance offices.

Salaries paid to Ames area employees in 1972 totaled \$13.3 million. The state wide payroll for the Highway Commission in 1972 was \$39.9 million.

During fiscal 1972 \$199 million was expended on the primary system. Highway construction that year accounted for more than \$112 million and maintenance more than \$26 million.

In that same year the Commission awarded nearly \$107.5 million in highway construction contracts and completed more than \$104 million worth of highway construction.

Central offices of the Iowa State Highway Commission in Ames, completed in 1961.

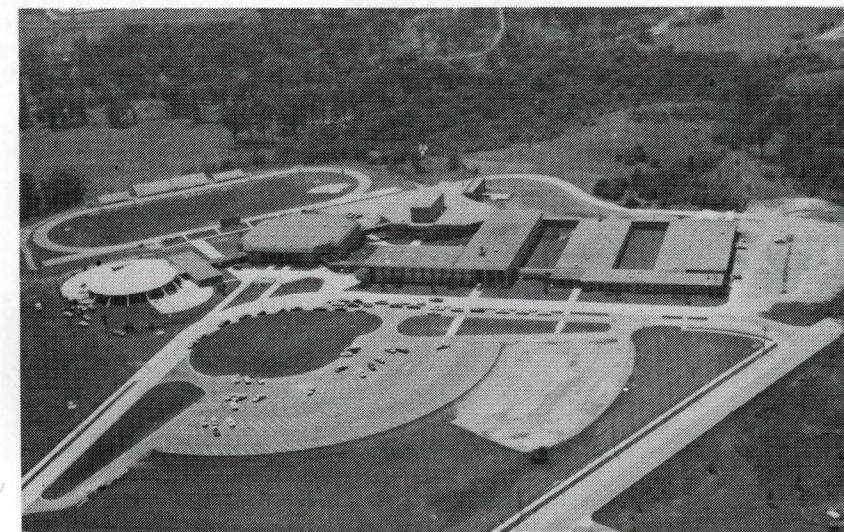

AMES PUBLIC SCHOOLS

With modern, well-equipped school buildings and with modern educational philosophies and practices, the Ames Public Schools offer a splendid opportunity for the education of the children of the city. The school plant comprises

twenty-two buildings, with a present total new replacement value of \$18,675,000. This plant includes the new Senior High School; the downtown Central Junior High School Building and its splendid auditorium and gymnasium facilities; the new Welch Junior High; the Beardshear, Crawford, Edwards, Fellows, Meeker, Mitchell, Northwood, Roosevelt, Sawyer, Whittier, and Willson Elementary Schools, and the Maintenance Building. The Lincoln Elementary School has been converted to Central Administration.

Ten projects were completed during the past five years. A stadium with a well-lighted football field and an all-weather Grasstex track was used for the first complete football season in the fall of 1966. Connected with this stadium is a senior high school gymnasium that was dedicated in February, 1967. A joint city-school recreation building housing a 75' x 75' swimming pool is connected with the gymnasium and is used jointly by the school and city. A new elementary school, the Fellows School, was dedicated in April, 1967. A new Welch Junior High School for the west side of Ames was opened in the fall of 1968. Additions were built to elementary schools to provide them with needed classrooms and Central facilities, particularly instructional material centers. Two new elementary schools were completed in 1970, Mitchell and Northwood.

During the past fifteen years ten different bond issues were successfully carried to authorize the construction of five elementary schools, additions to nine elementary schools, remodeling of junior high school facilities, a new high school, and a new junior high school. The most recent of the ten successful bond issues, the \$3,900,000 issue approved in March, 1968, provided funds to build two new elementary schools, additions to four elementary schools, an addition to the Senior High School, and an addition to the Welch Junior High School. There were a total of 112 elementary classrooms with related facilities and 67 secondary classrooms in these construction projects.

Ames Senior High School

The new Senior High School was constructed a unit at a time as funds permitted on a beautiful, spacious 74 acre site. Some additional well-located sites are being acquired on which to build more schools to meet the needs of the growing enrollment.

Each year the average teaching load has been kept at about 25 children per teacher by providing additional classroom space and more teachers. The central office staff has also been increased during the past three years by the employment of a Superintendent for Curriculum and Instruction and an Instructional Materials Coordinator to continue to improve the services to individual students and classroom teachers.

Pupil enrollment, exclusive of about 2,000 people in adult education, is 5,860. There are approximately 360 teachers and other professional staff members and 200 other personnel—secretaries, food service employees and custodians. The Ames Schools have a fine staff of supervisors who give guidance in the curriculum areas at all levels. There also are special education services for children at all levels.

The Iowa State Center

THE IOWA STATE CENTER

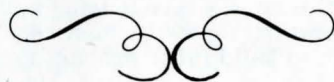

C. Y. Stephens Auditorium—seating 2,660 for concerts, opera, ballet, drama and similar events. Special attention to acoustical qualities. Facilities for motion pictures and closed-circuit television.

The James J. Hilton Coliseum—The Hilton Coliseum is the largest of the four buildings planned in the Iowa State Center complex. Seating for 14,000 for commencement exercises, stage and arena programs too large for auditorium-theater presentation, meetings, banquets, exhibits and displays. Good acoustics. It is also used for basketball and has a ice floor for hockey, ice shows and ice skating.

Conclusion

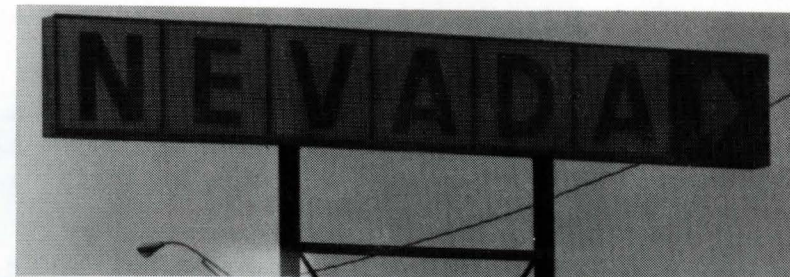

From the foregoing factual data, it can be seen that Ames offers many advantages—Social, economic, educational. It has an exceptionally high health rating; it is a city of beautiful homes, situated in one of the fairest states in the land, in the heart of the world's wealthiest agricultural region. Ames possesses virtually every element vital to the social and economic welfare and personal happiness of the individual, and every element of success for the small business or small industry.

WHY A BUYERS' GUIDE?

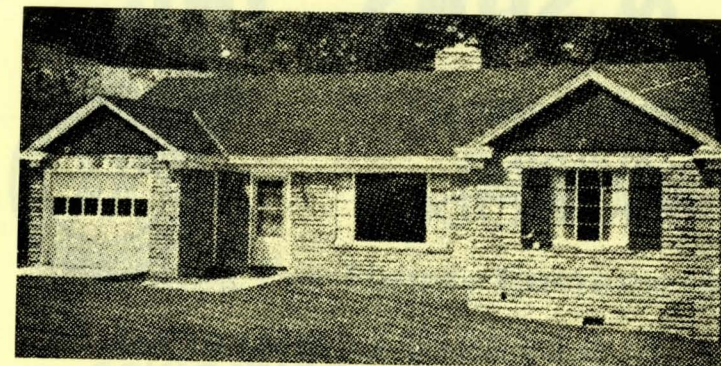

IT IS CUSTOMARY TO INCLUDE A BUYERS' GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

Street and Avenue Guide Including Telephone
Numbers, Home Owner Symbols
and Zip Codes

1973

Star ★ Preceding Name Indicates NEW HOUSEHOLDER This Edition.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to alphabetical list of names.

The symbol ★ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Star appearing between street number and name of occupant denotes new householder this edition.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip code numbers are shown immediately following each street description. If a street runs through more than one zone the new zip code number is shown immediately preceding the lowest street number in the new zone.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "no return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

Star ★ Preceding Name Indicates NEW HOUSEHOLDER This Edition.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to alphabetical list of names.

The symbol * following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Star appearing between street number and name of occupant denotes new householder this edition.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip code numbers are shown immediately following each street description. If a street runs through more than one zone the new zip code number is shown immediately preceding the lowest street number in the new zone.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "no return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

Do your employers
furnish you with the
latest edition of the
City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled

R. L. POLK & CO.

HOW TO USE YOUR CITY DIRECTORY

The major departments in the Directory are arranged in the following order for ready reference:

1. INDEX TO ADVERTISERS
2. INTRODUCTION
3. BUYERS' GUIDE
4. CLASSIFIED
5. ALPHABETICAL SECTION
6. HOUSEHOLDERS' and STREET GUIDE

Particular attention is directed to four symbols as being important contributing factors in supplying complete information. They appear as follows: ALPHABETICAL SECTION, "h"—Householders, "r"—Resident, HOUSEHOLDERS' AND STREET GUIDE, "t"—Telephone Subscriber, "o"—Homeowner.

SERVICES OF R. L. POLK & CO.

MARKETING SERVICES

Polk offers a full range of services to help businesses increase their sales volume. One of Polk's principal services is custom-produced selective mail advertising for many of the nation's leading advertisers. Other services include: Mailing and prospect lists, couponing and sampling, data processing services, publishing of controlled-circulation magazines, contest administration, fulfillment services, consumer and market research, warehousing and shipping and creative services.

AUTOMOTIVE STATISTICS

Polk has served as statistician for the automotive industry for more than 40 years. Polk's total count of cars, trucks, motorcycles and trailers, by make and year model, is the only annual inventory of the nation's wheeled population. Polk's new car and truck reports furnish manufacturers and dealers with regular capitulations of all sales for each territory. To produce these statistics, Polk maintains one of the largest electronic data processing installations in the country. By using Polk statistical services, American business can plan intelligently its production, distribution and sales.

CITY DIRECTORIES

Polk City Directories are published regularly for more than 1,400 North American cities. Each Polk Directory is the one complete inventory of residents and businesses in the community for which it is published. The facts compiled for a City Directory include the name, address, occupation and marital status of each resident; the name, address, ownership and classification of each business. The vast fund of information in a Polk Directory helps bring together buyers and sellers, facilitates credit, speeds deliveries and communication and stimulates business generally.

BANK DIRECTORY

Published semi-annually, Polk's World Bank Directory is recognized as the outstanding reference book in the financial world. The directory carries detailed information on each of the nation's banks, showing officers, directors, branches, statement and other data. The book also includes a Summary of United States Banks, charts and statistics and a listing of governmental banking agencies and banking organizations. Polk also offers financial institutions a portfolio of marketing, advertising and research services.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.
